Work History

U.S. Navy, Whidbey Island, WA *2011 - 2017*
Flight Engineer/Operations Coordinator
P3C Orion systems matter expert. Responsible to the crew for safety of flight during mission requirements and if necessary, trained to execute emergency procedures while incorporating summary knowledge. Additionally, assisted in troubleshooting and working alongside maintenance crews to troubleshoot and fix aircraft systems. Furthermore, as an operations scheduler, coordinated a daily flight schedule to maintain readiness requirements using a limited number of aircraft, personnel, and maintenance resources.

James Sandoval LLC, Colorado Springs, CO 2005 - 2011
Web Developer/Consultant
Created websites for clients from concept to deployment, including tailored wordpress templates, e-commerce, and custom solutions to meet and exceed customer requests. Additionally, designed and implemented innovative resolutions to grow businesses using branding, web development/design, SEO, and social media methodologies.

T. Rowe Price, Colorado Springs, CO *2010 - 2011*
Web Content Manager
Responsible for delivering financial content to web clientele while working with marketing managers, business analysts, and web developers. A major highlight of this role was learning the extensive process of delivering content within a world-class financial organization.

UBM TECH – ICMI/HDI, Colorado Springs, CO 2009 – 2010
E-mail marketing developer
Developed html e-mails across multiple platforms, browsers, and e-mail clients. Worked with marketing managers, clients, and developers to build campaigns to guarantee efficacy and industry standards compliance.

Education

Bachelor of Arts, Anthropology, Minor in Business Administration
Western State Colorado University
Gunnison, CO - 2008

Bachelor of Science, Computer Science
Oregon State University
Corvallis, OR - *(Projected Graduation – December 2017)*
